Instruments

HumanTech Germany ist ein Unternehmen, das sich voll und ganz dem hochfunktionellen Einsatz und der Herstellung von Implantaten und Instrumenten im medizinischen Bereich widmet. Aus Forschung und Technik entwickeln wir neue Technologien und suchen permanent nach besseren Lösungen.

Wir entwickeln und produzieren alle unsere Implantate und Instrumente, sowohl heute, als auch zukünftig in Deutschland. Made in Germany ist für uns ein besonderes Gütesiegel auf das wir stolz sind. Unser HumanTech Kompetenzteam agiert in allen Teilen der Welt, fundierte Marktanalysen und aktive, renommierte Chirurgen stellen für unsere Produktion Ihr Know-How zur Verfügung.

Alles kommt aus einer Hand – Forschung, Entwicklung, Produktion und Vertrieb. Dadurch werden unnötige Distributionskosten vermieden und als Hersteller sind wir der direkte Ansprechpartner für unsere Kunden.

HumanTech Germany is a company which is fully dedicated to the highly functional use and manufacturing of implants and instruments in the medical field. We develop through research and innovation new technologies and are constantly seeking improved solutions.

We develop and produce ourselves in Germany all of our implants and instruments, both today and as well as in the future. Made in Germany is for us a special quality seal of which we are proud. Our HumanTech competence team operates in all parts of the world creating in-depth market analysis, and are advised and supported by the expertise of renowned surgeons.

Everything from one source - research, development, production and sales. This will avoid unnecessarily distribution costs and as manufacturer, we are the direct point of contact for our customers.
